Urgent care centers and mini clinics

Total Number of Facilities: 48

Urgent care is care that is needed right away, but that you don't think is an emergency. Mini clinics are generally staffed by nurse practitioners and physician assistants who are trained to diagnose and treat common illnesses, minor injuries and skin conditions to help you get better. If you experience a medical condition that requires urgent care, you should call your PCP first. If the doctor can't see you for 48 hours, ask if a mini clinic visit would be appropriate. Remember, mini clinics do not take the place of your health care provider and you should continue to schedule regular and ongoing visits with your PCP. Mini clinics are open 7 days a week and on evenings and weekends. Hours of operation may vary by location and no appointments are required.

Ancillary providers

Ancillary providers are doctors and facilities, which provide additional care and services not typically provided by your PCP or other specialists. For example, a facility that provides X-rays or MRIs would be an ancillary provider. Another example would be a laboratory that processes blood work. See the Covered Services List that came with your Member Handbook for ancillary services that need prior authorization. If you have any questions, please call our Customer Service department at the number listed below.
