

Medications for chronic conditions

Coverage for identified generic drugs is exempt from cost-sharing, including copayments, coinsurance, and deductibles for most Fallon Health Community Care plans.*

Coverage for identified brand-name drugs is exempt from deductibles and coinsurance, with copayments capped at \$25 per 30-day supply for most Fallon Health Community Care plans.* This includes one brand-name insulin drug per dosage type. Note, as there currently are no generic insulin as defined in the regulation, our list only includes brand name insulins.

** For Qualified High-Deductible Plans like the Connector Low Silver HSA plan, deductible must be met first before the \$0 or max \$25 copay applies. Deductible does not apply to insulin drugs only.*
